

Location: **Washington, D.C.**

Parke Industries/Lime Energy completed a lighting retrofit at one of the most prominent office buildings in Washington D.C. which houses some of the federal government's agencies. The 12 story, 300,000 square-foot building will save \$150,730 a year on electricity.

Benefits:

- Reduced Lighting Expense up to 70%
- Improved Lighting Levels 10-50%
- Zero Maintenance Cost for 3 years
- High Return On Investment

Financial Highlights:

- Annual Electrical Reduction 1,688,957 kWh
- Annual Electric Savings \$132,750.
- Utility Rebate \$196,822.
- Payback Period 10.3 Months

“We viewed this project as an opportunity to install a state-of-the-art lighting system that immediately reduces our operating cost.”
